MEO HUYNH
Web Developer

PROFILE

Learning full stack web development with a focus on UX/UI at LEARN Academy, an intense and immersive full stack development program. Passion in creating websites with an approach to minimalistic design, have great UX/UI in mind, and a bigger focus on the product or message itself. Future goals include contributing to the community by providing local and nonprofit shops with new or updated websites that will help expand their businesses.

EXPERIENCE

FULL STACK DEVELOPER IN TRAINING – LEARN ACADEMY
Feb 2020 - June 2020
San Diego, CA
• Currently accumulated over 250 hours of direct coding experience constructing code individually, through pair programming or through mob programming.
• Strengthening technical skills such as JavaScript, Ruby, React, Rails, and Test Driven Development by creating over 10 projects, 3 of which will be full stack from the ground up.

SUBMISSION COORDINATOR – CALI-LAND INC.
Oct 2016 - Dec 2017
San Diego, CA
• Fortified strong customer service abilities through active listening, empathy, clear communication, use of positive language, and willingness to learn and receive feedback.
• Increased organization skills through preparation and structuring of loan documents for submission.
• Efficiently processed up to four loans per day with each closed loan producing an average of $10,000 in revenue.

DESIGN INTERN – JLY DESIGNS
May 2016 - June 2016
New York, NY
• Established quality assurance skills from reviewing marketing material for clients ranging from non-profits, start-up organizations and Fortune 500 companies.
• Heightened ability for critical thinking skills through design brainstorming sessions of direct sales material for online information products.
• Gained insight on graphic designers' and content writers' critically thinking skills and what their workflow is like through shadowing.
